- iii. Non-Title XIX/XXI Substance Abuse Adults (SA) who are adult persons age eighteen (18) and older who have a substance abuse disorder, are a priority population under the SAPT Block Grant, or are referred for DUI screening, education and treatment, and have not been determined to have a serious mental illness;
- iv. Non-Title XIX XIX/XXI Children through the age of seventeen who are in need of behavioral health services; and
- v. Prevention Participants, defined as any child or adult who participates in prevention programs provided by the Contractor.

In July 2006, there were approximately 7,700 Non-Title XIX/XXI adults with Serious Mental Illness; 11,400 Non Title XIX/XXI adults with General Mental Health or Substance Abuse issues; and 2,400 Non-Title XIX/XXI child behavioral health recipients enrolled in the Maricopa County behavioral health system.

In sum, there were approximately 70,000 behavioral health recipients enrolled in the Maricopa County behavioral health system as of July 2006 that would be served under this Contract. Each month enrollment and eligibility statistics are posted on the ADHS website at the following address: http://azdhs.gov/bhs/enroll_pen.htm.

3. Pending Legislative, Legal, and Regulatory Issues

In addition to the requirements described in this Contract, there may be legislative issues or directives, regulatory changes, or law suits that will have an impact on services delivered by the Contractor on or after the Contract Start Date. The following is a brief description of the issues known to ADHS at this time:

- a. Arizona Early Intervention Program (AZEIP). AZEIP is implemented through the coordinated activities of ADES, ADHS, Arizona State Schools for the Deaf and Blind (ASDB), AHCCCSA, and the Arizona Department of Education (ADE). AZEIP is operated under the authority of the Individuals with Disabilities Act, Part C. Through Federal regulation, AZEIP is stipulated as the payor of last resort to Medicaid, and is prohibited from supplanting another entitlement program, including Medicaid. AHCCCSA is currently collaborating with ADES to provide increased Medicaid funding to this program. If Medicaid funding is increased, the Contractor may be required to engage in additional coordination with the AZEIP program.
- b. Litigation. There are two (2) lawsuits that have had, and will continue to have an effect on the Contractor's service delivery. The Contractor's obligations regarding the lawsuits are incorporated into the Arizona Administrative Code Title 9. Chapter 21 (A.A.C.-R9-21), the terms of this Contract, and documents

<p style="text-align: center;">SCOPE OF WORK SOLICITATION NO. HP632209</p>
--

incorporated into this Contract by reference. The following is a brief description of the lawsuits:

- i. *Arnold vs. ADHS*. In Maricopa County, *Arnold vs. ADHS* class members have been awarded injunctive relief that compels ADHS to establish and maintain a comprehensive community-based treatment system. A class member under *Arnold vs. ADHS* is a resident of Maricopa County, indigent, has a serious mental illness, and would reasonably benefit from appropriate behavioral health treatment due to his or her mental illness. A priority class member under *Arnold vs. ADHS* is a person who meets all of the above criteria for a class member and is enrolled in the behavioral health system as of the date of the Joint Stipulation on Exit Criteria and Disengagement (Exit Stipulation) or anytime thereafter; is eligible for an extended individual service plan (ISP); and since July 1, 1993, is or has been a resident of the Arizona State Hospital (AzSH), a resident of a supervisory care home, a resident of a twenty-four (24) hour residential program, a jail inmate with a major biological mental illness, hospitalized twice or more in one (1) year or a frequent user of crisis services.

The parties to the litigation have agreed that ADHS will exit the lawsuit when ADHS satisfies certain terms and conditions in the Exit Stipulation and supplemental court orders, including the May 23, 2006 Revised Completion Date for *Arnold vs. ADHS* Requirements for the Joint Stipulation on Exit Criteria and Disengagement, which is a court-ordered obligation. The Court Monitor appointed to oversee ADHS' compliance conducts annual audits to measure compliance with the *Arnold v. ADHS* requirements and modifications to Contract requirements may result. Additional requirements stemming from this lawsuit, are described in five (5) Maricopa County Strategic Plans, incorporated by reference into the terms of this Contract. These plans are the:

- 1) Arizona Department of Health/Division of Behavioral Health Strategic Plan for Housing for Maricopa County for Individuals With a Serious Mental Illness;
 - 2) Maricopa County Plan for Employment and Rehabilitation;
 - 3) Maricopa County Case Management and Clinical Team Services Plan;
 - 4) Strategic Plan for Dual Diagnosis; and
 - 5) Maricopa County Quality Management Plan.
- ii. *JK vs. Gerard*. The JK Settlement Agreement was approved by the U.S. District Court in June 2001. In accordance with the Final Settlement Agreement and its specific requirements, ADHS is required to: foster the development of a Title XIX behavioral health system that delivers services according to the Children's System Vision and Principles; develop and

<p style="text-align: center;">SCOPE OF WORK SOLICITATION NO. HP632209</p>
--

maintain a statewide training program; add behavioral health respite services; devise and implement a means of allowing RBHAs to contract with licensed Master's level behavioral health professionals; expand Title XIX services; designate \$600,000 for the use of flex funds; develop practice guidelines for the monitoring of medications; initiate a 300 Kids Project; develop annual action plans; change the ADHS quality management and improvement system; and involve Plaintiff's counsel and other stakeholders.

Many of these obligations have been successfully implemented; however, ADHS continues to focus attention on overall quality management and improvement as well as ensuring all children and their families are served according to the Children's System Vision and Principles. ADHS continues to develop annual action plans and requires the Contractor to develop RBHA-level and provider-level supporting workplans. These workplans are monitored by ADHS for successful implementation.

ADHS obligations under the Settlement Agreement were due to expire on July 1, 2007. The parties subsequently stipulated that the terms of the Settlement Agreement would be extended to July 1, 2010.

- c. Waiver . The AHCCCSA program operates under the authority of a Section 1115 Research and Demonstration Waiver. From time-to-time, AHCCCSA may seek authority to implement new programs or benefits for eligible individuals in Arizona and Maricopa County. Changes to the authority provided by the waiver will likely affect the management of services delivered to eligible individuals in GSA 6 under this Contract and may require Contract amendment.

Provider Network Organizations will utilize the Contractor-specific version of the Provider Manual for the provision of covered behavioral health services (see Scope of Work, Section C. Covered Behavioral Health Services and Managed Care Service Delivery, 1.c.). The Contractor may add Contractor-specific policies in Section 10 of the Provider Manual that the Contractor requires. ADHS intends through this Contract, to separate the provision of direct service delivery from the behavioral health managed care vendor. If the RBHA elects not to provide, reimburse for or provide coverage of a counseling or referral service because of an objection on moral or religious grounds, it must furnish information about the services it does not cover to ADHS, with its application for a Medicaid contract and whenever it adopts the policy during the term of the Contract.

<p style="text-align: center;">SCOPE OF WORK SOLICITATION NO. HP632209</p>

4. Network Service Delivery

The Contractor shall subcontract with the following entities for the delivery and management of covered behavioral health services:

a. Crisis Response Network

The Contractor shall contract with a county-wide Crisis Response Network Organization (Crisis Response Network) for high-volume, high-cost, or high-risk crisis services for all individuals located in Maricopa County. The Crisis Response Network shall have a sufficient number of qualified staff to deliver services twenty-four (24) hours a day, seven (7) days a week which must be provided when and where the individual needs them, not in connection with a scheduled appointment. The Crisis Response Network shall deliver clinically appropriate crisis intervention, stabilization and resolution services in the most appropriate setting and coordinate appointments for follow-up services within ADHS time frames.

The Crisis Response Network shall provide the following crisis intervention and resolution services:

- i. 24/7/365 Telephone Crisis Response Services,
- ii. At least two (2) Hospital-based Rapid Response Mobile Teams,
- iii. At least two (2) Community-based Mobile Crisis Teams,

b. Provider Network Organizations (PNOs)

The Contractor shall contract with vertically integrated PNOs that consist of employed and independently contracted behavioral health professionals and other qualified service providers, including minority and faith-based providers, that collectively provide a continuum of covered behavioral health services, including case management, for adults, children, and families developed pursuant to an individualized, comprehensive service plan. All providers selected by the PNOs must be qualified service providers.

SCOPE OF WORK

SOLICITATION NO. HP632209

The PNO is responsible for conducting service planning that promotes recovery and resilience, provides prevention services, and includes involvement of the individual, family members, friends, mentors, advocates, practitioners, educators, case managers, the Clinical Liaison, court and agency representatives, ADHS, and the Contractor's personnel, as clinically appropriate and desired by the behavioral health recipient and family.

The PNOs shall be the first to respond to enrolled behavioral health recipients experiencing a behavioral health crisis, but shall not be responsible for inpatient services or mobile crisis response. The Contractor shall include a sanction provision in its subcontract with PNOs to prevent a PNO from shifting service delivery and cost of care to the Crisis Response Network instead of delivering needed covered behavioral health services to their enrolled behavioral health recipients.

Although it is the preference of ADHS that each PNO serve all populations (children/youth, General Mental Health, Substance Abuse, and persons with serious mental illness), a particular PNO may opt to serve a specific population group County-wide. The PNO shall provide timely access to covered behavioral health services that are effective in achieving individual service plan (ISP) goals and are delivered in a manner consistent with the Arizona System Principles. If the PNO does not offer a needed service, the PNO is responsible for developing the service or subcontracting for the service with another qualified service provider located within or out-of-network. The Contractor shall assure that any cost to a behavioral health recipient receiving services from an out-of-network provider, because services are not available in network, is no greater than if the services were provided by a network provider. In conjunction with the Contractor, the PNO shall oversee the quality of care and covered behavioral health services provided by the PNO and its subcontracted qualified service providers.

5. Qualified Service Providers

For the duration of the Contract, the Contractor shall subcontract for psychiatric inpatient hospital services with qualified service providers that are credentialed, licensed, Medicaid/Medicare certified, and accredited by the Joint Commission on Accreditation of Health Care Organizations under the inpatient standards, if delivering services to persons ages twenty-one (21) years and under. The Contractor shall subcontract with qualified service providers to deliver covered behavioral health services until the PNOs are fully operational or to deliver services that will be directly managed by the Contractor.

Behavioral health recipients have open access and can self-refer to the Provider Network. When an individual requests to access services, *there shall be no wrong door*. The Contractor, the Crisis Response Network, the PNOs, or a qualified service provider

<p style="text-align: center;">SCOPE OF WORK SOLICITATION NO. HP632209</p>
--

shall respond when an individual requests services. A qualified service provider, PNO, the Crisis Response Network or Contractor personnel shall assist any individual with obtaining services for which the individual is eligible, from the providers best-suited to deliver effective services to him or her.

Response: Agree _____, Agree with Deviations _____, or Disagree _____

(If Offeror marked “Disagree” or “Agree with Deviations,” please provide the rationale and any alternative provision to which Offeror would agree.)

6. Integration, Collaboration, and Continuity of Care

a. Integration of Behavioral Health with Primary Care Physicians/Practitioners and Collaboration with AHCCCS Health Plans

The Contractor shall require its subcontracted PNOs and qualified service providers to identify whether a behavioral health recipient has a Primary Care Physician/Practitioner and encourage and assist the individual to engage in primary care. The Contractor shall require its subcontracted PNOs and qualified service providers to seek and share information with the behavioral health recipient’s Primary Care Physician/Practitioner and promptly communicate relevant information in accordance with the contract between AHCCCSA and ADHS and governing regulations concerning confidentiality and sharing of health information.

The Contractor shall provide training on and require its subcontracted PNOs and qualified service providers to adhere to the requirements of the AHCCCS/ADHS Psychotropic Medication Initiative. The training shall specify how and when Title XIX and Title XXI behavioral health recipients may receive medications for psychiatric disorders from a health plan Primary Care Physician/Practitioner, and include procedures to ensure that behavioral health recipients do not simultaneously receive psychotropic medications from both a behavioral health provider and the health plan Primary Care Physician/Practitioner. The Contractor shall implement the remedies specified by the State’s Psychotropic Medication Initiative if a behavioral health recipient is simultaneously receiving medications from a health plan Primary Care Physician/Practitioner and a behavioral health provider. The Contractor shall pay for psychotropic medications prescribed by its qualified service providers that are included in the ADHS/DBHS Medication Formulary.

The Contractor shall assist behavioral health recipients with establishing a relationship with and making use of their Primary Care Physician/Practitioner for preventive and urgent care. In addition, the Contractor shall have a process to ensure that behavioral health recipients who have urgent or emergent medical needs have access to emergency medical services. The Contractor shall not exclusively rely upon hospital emergency rooms to fulfill this requirement.

SCOPE OF WORK

SOLICITATION NO. HP632209

The Contractor shall collaborate with Maricopa County AHCCCS Health Plans to address integration of mental health, substance abuse, and primary care service delivery at the system level. The Contractor shall designate a “Health Plan Liaison” to work with the Behavioral Health Coordinators of AHCCCS-contracted health plans on complex cases and overall coordination issues.

To facilitate collaboration with the AHCCCS Health Plans, the Contractor shall meet with each of the AHCCCS Health Plans operating in the GSA on a quarterly basis or more frequently as needed to identify and resolve issues in a timely manner. These meetings shall be held to address coordination of care issues between the two (2) systems, including, at a minimum, sharing information with health plans regarding referral and consultation services and solving identified problems. The Contractor shall pay claims for covered behavioral health services delivered by the Arizona State Hospital to the following populations in accordance with the AHCCCS Fee-For-Service Rate Schedule in effect on the date the service is delivered:

- i. Title XIX and Title XXI behavioral health recipients, under the age of twenty-one (21) and over sixty-five (65) years of age, in the same manner as other covered behavioral health services delivered to Title XIX and Title XXI behavioral health recipients, if and to the extent service authorizations are in effect and to the extent that the Arizona State Hospital is a registered AHCCCS provider.
- ii. Title XIX behavioral health recipients, ages twenty-one (21) through sixty-four (64), are subject to the Title XIX Institution for Mental Disease (IMD) benefit limitations as outlined in the ADHS/DBHS Provider Manual, the

SCOPE OF WORK

SOLICITATION NO. HP632209

ADHS/DBHS Covered Behavioral Health Services Guide, the Section 1115 AHCCCS Research and Demonstration Waiver and also to the extent service authorizations are in effect and provided that the Arizona State Hospital is a registered AHCCCS provider.

The Contractor shall deliver sufficient community living arrangements with appropriate supports are available to meet the individual needs of behavioral health recipients upon discharge and shall ensure the appropriate, timely discharge of behavioral health recipients with a serious mental illness from the Arizona State Hospital in accordance with the ADHS/DBHS Arizona State Hospital Clinical Practice Improvement Protocol. The Contractor shall administer the Arizona State Hospital Transition Fund, <http://azdhs.gov/bhs/policies/mi5-4.pdf> and the Community Placement Funds to meet these objectives.

c. System Collaboration

The Contractor shall collaborate with State and Maricopa County agencies, including the Maricopa County Health Department, AHCCCS Health Plans, Arizona ALTCS, the judicial system, and Tribes that have enrolled tribal members living within the GSA. The Contractor shall address and attempt to resolve coordination of care issues with other State agencies, AHCCCS Health Plans, and Tribes at the lowest possible level of each organization.

The Contractor shall establish specific mechanisms for improving coordination with Tribes and tribal agencies in Maricopa County, including:

- i. the full time employment of a Tribal Liaison;
- ii. methods to ensure the availability and provision of culturally appropriate care within the network;
- iii. methods to coordinate eligibility and service delivery with Urban Indian Health Centers and 638 provider facilities owned and operated by a Native American Tribe and authorized to provide services pursuant to Public Law 93-638, as amended;
- iii. methods to elicit routine customer satisfaction and feedback from providers owned and/or operated by a Native American Tribe and located in Maricopa County; and
- iv. an annual meeting with Indian Health Service, the Veterans Administration, 638 providers and Urban Indian Centers to coordinate and facilitate behavioral health service delivery.

The Contractor shall utilize the ADHS/DBHS Provider Manual to communicate to qualified service providers, in the applicable content area, any agreed upon Collaboration Plan or AHCCCS collaboration protocols that shall be carried out by providers.

The Contractor shall develop, implement, and monitor written policies and procedures consistent with the ADHS/DBHS Provider Manual, the ADHS/DBHS Policies and Procedures Manual and Network Management requirements regarding continuity of care. In particular, the policies and procedures shall address the following situations:

7. Specific Service Components

a. Crisis Response Network

The Contractor shall, at a minimum, develop and maintain the following services through the Crisis Response Network in accordance with the Network Transition Plan and as adjusted annually thereafter in the Annual Provider Network Development and Management Plan:

- j. 24/7/365 Telephone Crisis Response Services,
- ii. At least two (2) Hospital-based Rapid Response Mobile Teams,
- iii. At least two (2) Community-based Mobile Crisis Teams,

- viii. Pre-Petition Screening and Court-Ordered Evaluations.

The Contractor shall require the Crisis Response Network to maintain a twenty-four (24) hour, seven (7) days per week crisis response system with one (1) toll-free crisis telephone number. The crisis telephone number shall be widely publicized within the

SCOPE OF WORK

SOLICITATION NO. HP632209

GSA, and listed in the resource directory of local telephone books. The Crisis Response Network shall have a sufficient number of qualified staff to operate telephone crisis response lines to meet the service demand of all persons in the GSA (currently 24,000 – 30,000 calls per month), and shall answer within three (3) telephone rings, with a call abandonment rate of less than three percent (3%). Crisis phone response shall include triage, referral, and dispatch of Crisis Response Network qualified service providers as applicable. The Crisis Response Network shall respond to crisis calls in accordance with the immediate and urgent response requirements as outlined in the ADHS/DBHS Provider Manual and have a process to record referrals, dispositions, and overall response time. The Contractor shall have the capacity within its crisis phone response and crisis response services to communicate with individuals who do not speak or understand English. The Contractor shall require the PNOs or other qualified service providers to be the primary contact for crisis calls from enrolled behavioral health recipients that the provider serves.

The Contractor shall require PNOs or qualified service providers to make use of the full range of covered behavioral health services when intervening to stabilize a crisis situation by coordinating the transition of the behavioral health recipient in crisis to clinically indicated services and accessing and utilizing, when clinically appropriate, the behavioral health recipient's crisis plan, if one exists. The Contractor shall require PNOs and qualified service providers that deliver services in response to immediate and urgent needs to intervene and offer resolutions, not merely triage and transfer. The Contractor shall require PNOs and qualified service providers to deliver covered behavioral health services in the least restrictive setting appropriate to meet the needs of the behavioral health recipient, consistent with individual and family needs and community safety.

When a qualified service provider determines that a person receiving services may need court-ordered evaluation pursuant to A.R.S. § 36-520 et seq. (<http://www.azleg.state.az.us/FormatDocument.asp?inDoc=/ars/36/00520.htm&Title=36&DocType=ARS>), the individual's qualified service provider or assigned Clinical Liaison is required to complete and submit a petition, a pre-petition screening report, and any other relevant documentation to the Legal Department at Maricopa Integrated Health System's (MIHS) Desert Vista Campus for individuals who, as a result of a mental disorder, have become:

- a danger to self (DTS);
- a danger to others (DTO);
- persistently or acutely disabled (PAD); or
- gravely disabled (GD).

For individuals receiving pre-petition screening or court-ordered evaluation or who are referred for court-ordered, medically necessary treatment, the Contractor shall coordinate with the PNO or the appropriate qualified service provider to determine if the

<p style="text-align: center;">SCOPE OF WORK SOLICITATION NO. HP632209</p>
--

individual is eligible for Title XIX and Title XXI services or eligible for services for persons with serious mental illness, but not yet enrolled. If so, the Contractor shall conduct an assessment to determine if the person meets the criteria for serious mental illness and arrange for the Title XIX and Title XXI eligibility screening.

For Title XIX and Title XXI behavioral health recipients and those determined to qualify for serious mental illness services, the Contractor shall arrange for a behavioral health assessment to identify the person's service needs, and arrange for medically necessary, court-ordered treatment and other covered behavioral health services in accordance with the person's needs.

The Crisis Response Network shall arrange for psychiatric and/or psychological consultations for Title XIX and Title XXI behavioral health recipients in emergency room settings through the use of Hospital-based Rapid Response teams or other available consultants. The person's AHCCCS Health Plan is responsible for all other medical services, including triage, physician assessment, and diagnostic tests for services delivered in an emergency room setting. The Contractor shall collaborate with the behavioral health recipient's health plan to confirm that the health plan has provided the services for which it is responsible.

The Contractor shall develop and maintain a collaborative effort with Tribes, fire, police, emergency medical services, hospital emergency departments, AHCCCS Health Plans, and other providers of public health and safety services to inform them of how to access the crisis response system. The Contractor shall meet regularly with representatives of the Crisis Response Network, fire, police, emergency medical services, and hospital emergency departments to coordinate services and to assess and continuously improve the crisis response system.

The Crisis Response Network shall implement and maintain (24) hour, seven (7) day a week electronic access to crisis plans and advance directives for all behavioral health recipients and families. The PNOs shall have (24) hour, seven (7) day a week electronic access to the crisis plans and advance directives of the individuals and families they serve, as applicable. The Crisis Response Network shall share information with fire, police, hospital emergency departments, and other emergency providers as permitted by Federal and State laws regarding confidentiality.

The Contractor shall be responsible for coordination of care and payment of all Level I inpatient hospital services provided to Title XIX and Title XXI eligible behavioral health recipients when the Contractor or Crisis Response Network has had contact with the behavioral health recipient prior to the admission into the Level I inpatient setting.

The Contractor is responsible for payment of Emergency Services, even if provided by an out-of-network provider. Emergency behavioral health services shall not require prior

SCOPE OF WORK

SOLICITATION NO. HP632209

authorization and shall be delivered in compliance with the ADHS/DBHS Provider Manual, including the section on Securing Services and Prior Authorization. The Contractor may not deny reimbursement for Emergency Services if Contractor or its subcontractor personnel direct the behavioral health recipient to seek Emergency Services or in cases when the absence of immediate medical attention could reasonably be expected by a prudent layperson to result in serious impairments to bodily functions, serious dysfunction of any bodily organ or part, or placing the health of the behavioral health recipient (or with respect to a pregnant woman, the health of the woman or her unborn child) in serious jeopardy.

Further, the Contractor may not refuse to cover or reimburse a provider for Emergency Services when the emergency room provider, hospital, or fiscal agent does not notify the Contractor or provider of the behavioral health recipient's screening and treatment within ten (10) calendar days of presentation for Emergency Services. b. Service Delivery

In order to support the ADHS vision of creating a service delivery system for children and families that promotes the provision of support and rehabilitation services, treatment services and natural supports, the Contractor shall create and implement financial and other incentives in its subcontracts with Children’s PNOs and qualified service providers to promote the delivery of support, rehabilitation and substance abuse services in the home or community-based settings as opposed to the qualified service provider’s office, unless clinically appropriate and supported by best practice. In order to promote the delivery of community-based covered behavioral health services, the Contractor shall create and implement tiered reimbursement rates for Level I Inpatient Hospital and residential service providers to reflect the relative decrease in intensity of needed services within each setting over time. If the Level I Hospital or residential service provider can demonstrate that the service intensity remains unavoidably high following the initial admission and assessment period or that discharge is prevented due to an absence of an appropriate discharge setting, the highest tier of rates shall apply. The Contractor shall determine the liability of third parties that are obligated to pay for covered behavioral health services. The Contractor shall cost-avoid a claim if it determines there is probable cause or has information that third-party liability exists. The Contractor shall process all claims when it determines there is no probable cause or has no information that third-party liability exists at the time the claim is filed.

The Contractor shall pay any co-payment, coinsurance or deductible if a third-party payor requires the behavioral health recipient to pay these costs even for covered behavioral health services delivered by an out-of-network provider. The Contractor shall not pay a copayment, coinsurance, or deductible that exceeds an amount the Contractor would have paid for the entire service under a written contract with the provider delivering the service, or the ADHS/DBHS fee-for-service payment equivalent. The Contractor shall decide whether it is more cost-effective to provide the service within its network or pay a copayment, coinsurance, or deductible for a service outside its network. If the Contractor refers the behavioral health recipient for services to a third-party payor, and the payor requires payment in advance of all copayments, coinsurance, or deductibles, the Contractor shall make the payments in advance. The Contractor shall comply with Medicare cost sharing requirements in accordance with the ADHS/DBHS Provider Manual and Chapter 200 of the AHCCCS Contractor Operations Manual.

When the Contractor knows that the third-party payor will not pay a claim for a covered behavioral health service because of untimely claim filing or denial of coverage, the Contractor shall not deny service delivery, deny payment of the claim based on third-party liability, or require the third-party payor to send a written denial letter if the covered behavioral health service is medically necessary. The Contractor shall communicate third-party liability information of any known change in or addition to health insurance information, including Medicare, to AHCCCSA, Division of Member Services, not later than ten (10) days from the date of discovery using the AHCCCS Approved Third-Party Change Correspondence in the ADHS/DBHS Provider Manual. The Contractor shall timely deliver all medically necessary covered behavioral health services when the Contractor determines a third-party payor is not liable to pay for services .

The Contractor shall receive in accordance with applicable Federal and State laws, regulations, or policies the following payments as set forth in the Capitation Rates Table, attached as Exhibit B, for services performed under this Contract.

a. *Title XIX and Title XXI Capitation Payments*

The Contractor shall receive monthly capitation payments based on the number of AHCCCS Title XIX and Title XXI persons eligible on the first day of the month. The Contractor shall accept the monthly capitation payment as full payment to deliver all Title XIX and Title XXI medically necessary covered behavioral health services to all behavioral health recipients that are Title XIX or Title XXI eligible during the month. capitation payment for Title XIX or Title XXI eligible or enrolled persons who are enrolled or disenrolled with AHCCCSA after the first of the month.

The Contractor agrees that ADHS may review the Title XIX and Title XXI capitation rates and make retrospective and/or prospective adjustments to the capitation rates for Title XIX and Title XXI covered behavioral health services for a gain or loss by the Contractor of more than four percent (4%), subject to the availability of appropriated funds. The Contractor agrees that ADHS has the sole discretion to reevaluate the capitation rates equal to four (4) times per year to make adjustments to the monthly capitation payments. 2. Performance Guarantees and Incentives

a. Earning Performance Guarantees and Incentives

The Contractor may earn Performance Guarantees and Incentives based on the following:

- i. The Contractor shall be at risk to pay ADHS up to .25 percent of the annual Title XIX and Title XXI capitation payment as a penalty if the Contractor fails to meet the minimum performance thresholds on the measures in the matrix attached to this Contract as Attachment C. The Contractor agrees that the penalty shall be charged against the Contractor's administrative allocation portion of the monthly capitation payment and shall not reduce or diminish service delivery in any way.
- ii. The Contractor may earn an incentive up to one percent (1%) of the annual Title XIX and Title XXI capitation payment if the Contractor meets or exceeds the measures in the matrix attached to this Contract as Attachment C.

When applicable, the Contractor shall receive the .25 percent at risk payment for performance guarantees as part of the monthly capitation with a quarterly penalty administration. The one percent (1%) allocated to incentives shall be withheld from the

<p style="text-align: center;">SCOPE OF WORK SOLICITATION NO. HP632209</p>
--

capitation and incentive payments shall be administered as performance thresholds are met. The penalty and incentive allocation for each metric is the percent as stated in the matrix in Attachment C.

A prerequisite for qualifying for incentive payments based on the Performance Guarantees in Attachment C is that the Contractor shall meet all contractually required data and encounter submission requirements outlined in the Financial Reporting Guide for Regional Behavioral Health Authorities. In addition, the Contractor must submit accurate demographic data for at least eighty-five percent (85%) of all enrolled behavioral health recipients within fifty-five (55) days of enrollment in accordance with the ADHS/DBHS Provider Manual, ADHS/DBHS Policy Clarification Memorandum dated December 1, 2006 (<http://www.azdhs.gov/bhs/provider/assess.pdf>) and the ADHS CIS File Layout and Specifications Manual. This threshold does not supercede any higher data submission requirement stated elsewhere.

The Contractor agrees performance guarantees and incentives shall become effective on the Contract Start Date and remain in effect for a period of twelve (12) consecutive calendar months and will automatically renew at the start of each new Contract year unless otherwise modified. The Contractor shall receive advance written notice of any changes in performance guarantee or incentive measures, thresholds, goals, and related in accordance with terms in this Contract.

The Contractor shall submit performance reports on established metrics to ADHS on a month-by-month basis or upon ADHS' request, quarter-by-quarter basis and year-to-date annualized reports. The Contractor shall submit reports in accordance with the established metrics in this Contract and not based on a book-of-business method.

b. Performance Guarantee Incentive Reporting

The Contractor shall submit summaries of performance to the ADHS/DBHS Bureau of Quality Management Operations as follows:

- i. Monthly Report on Established Performance Guarantees within thirty (30) days after each monthly measurement period;
- ii. Quarterly Report on Established Performance Guarantees within thirty (30) days after each quarterly measurement period; and
- iii. Annual Report on Established Performance Guarantees within forty-five (45) days after the fiscal year end.

c. Performance Guarantee Incentive Measurement

The Contractor shall measure performance for each standard on the performance for the period as defined in each standard as follows:

- i. For monthly metrics, the fees at risk and incentives available are defined as one-twelfth (1/12th) of the annual fees and incentives available.
- ii. For quarterly metrics, the fees at risk and incentives available are defined as one-fourth (1/4th) of annual fees and incentives available.

<p style="text-align: center;">SCOPE OF WORK SOLICITATION NO. HP632209</p>
--

- iii. For semi-annual metrics, the fees at risk and incentives available are defined as one-half (1/2) of annual fees and incentives available.
- iv. For annual metrics, the fees at risk and incentives available are defined as those fees and incentives available during the year.

d. **Penalty Assessments**

The Contractor agrees that:

- i. Any penalty amount shall be deducted from the monthly capitation check disbursed subsequent to an ADHS determination that the Contractor's performance does not meet established thresholds, and
- ii. Administration of penalty assessments are performed at the end of each quarter based on monthly quarterly, semi-annual or annual results, as specified for each standard.
- iii. The incentive payments will be calculated quarterly and payment will be made annually by wire transfer.

The Contractor shall receive/pay any monies owed with respect to these guarantees and incentives within one hundred and twenty (120) days of the termination of the Contract.

The Contractor shall cooperate with ADHS in its verification and audit of all performance measurement results. For performance guarantee measurement purposes, the Contractor shall submit self-reported results, which are subject to a data integrity analysis. Unless otherwise approved by ADHS, the Contractor's maximum error rate in submitted data shall be five percent (5%). The Contractor shall pay a penalty based on the applicable metric when its submitted data submission does not meet the thresholds for accuracy.

The Contractor shall cooperate with ADHS if, in its sole discretion, ADHS decides to perform an independent audit each year covering a three-(3) or more month period of the performance guarantee year. If the results of the independent audit are below the Contractor's self-reported results for the period under review, the Contractor shall agree to the independent audit results as the basis for performance guarantee measurement for the full year or until the Contractor demonstrates that the reliability of its self-reported results are consistent with independent audit results.

3. **Profit and Loss Corridors**

The Contractor shall accept ADHS' established limits (i.e., profit and loss corridors) on the Contractor's potential profits and losses. These profit and loss corridors apply to the

SCOPE OF WORK

SOLICITATION NO. HP632209

profits and losses derived from this Contract and apply to the aggregate of the Contractor's income/revenue and the income/revenue earned by related parties that perform any requirement or function of the Contract. If profit is determined to exceed the permissible amount, ADHS shall reduce payments to the Contractor.

The amount of any sanctions imposed on the Contractor will not be included as an expense for the purpose of calculating profit or loss. Amounts permanently withheld from the Contractor for failure to meet the final encounter withhold calculations of ninety-five percent (95%) of "service revenue" eight (8) months after fiscal year end (as described in the ADHS Financial Reporting Guide, Fiscal Monitoring and Financial Viability section III.c.8) will not be considered a sanction for the purposes of calculating profit or loss corridors. Performance incentives earned under this Contract shall not be included as revenue for the purpose of calculating profit or loss corridors. Similarly, funds recouped from the Contractor related to Performance Guarantees shall not be included as an expense (or a reduction to revenue) for the purpose of calculating profit or loss corridors.

The Contractor's profit and loss corridors shall be calculated as follows:

- a. *Title XIX Profit and Loss Corridors.* The Contractor's profits and losses for Title XIX revenues shall be limited to four percent (4%) of service revenue per contract year. Service revenue equals ninety-two point five percent (92.5%) of total ADHS revenue adjusted for payables and receivables from/to ADHS.
- b. *Title XXI Profit and Loss Corridors.* The Contractor's profits and losses for Title XXI revenues shall be limited to four percent (4%) of service revenue per contract year. Service revenue equals ninety-two point five percent (92.5%) of total ADHS revenue adjusted for payables and receivables from/to ADHS.
- c. *Non-Title XIX and Non-Title XXI Profit Limit.* The Contractor's profits for Non-Title XIX/XXI programs are limited to four percent (4%) of service revenue per contract year. There is no maximum loss for Non-Title XIX/XXI. Service revenue equals ninety-two point five percent (92.5%) of total ADHS revenue adjusted for payables and receivables from/to ADHS.

The Contractor agrees that ADHS may calculate profits and losses as described above as service revenues less service expenses. The Contractor shall return excess profits to ADHS. ADHS shall reimburse the Contractor for excess losses, subject to funding availability. The Contractor agrees that ADHS shall calculate profits and losses separately for the adult populations and the children's population. The Contractor may apply excess profit in the General Mental Health and/or Substance Abuse adult populations to offset losses in the children's population, but shall not apply excess profit in the children's population to offset losses in any adult population. Profits above four percent (4%) for the serious mental illness population may not be used for other programs and must be returned to the State, unless otherwise requested in writing and

approved by ADHS at least 3 months before fiscal year-end. The Contractor shall submit the Profit/Risk Corridor Calculation Reports to ADHS/DBHS Office of Financial Review by the 30th day after month end in accordance with the ADHS/DBHS Financial Reporting Guide.

If the party responsible to repay the Contract payments is other than the Contractor, the Contractor and ADHS shall work together to identify the responsible party(ies).

ADHS has established the encounter value threshold for the Contractor’s subcontractors as ninety-five percent (95%) of the value of the subcontractor’s total service revenue contract amount. The Contractor shall recoup the difference between a subcontractor’s total value of encounters submitted to the Contractor and ninety-five percent (95%) of the subcontractor’s total service revenue contract amount. The Contractor and its subcontracts are subject to recoupment.

Notwithstanding the Circular A-133 regulations restricting the inclusion of Medicaid programs, the Contractor shall include Title XIX and Title XXI as major programs for the purpose of this Contract.

Upon receipt of the Contractor's Final Audited Financial Statements, ADHS shall perform an analysis of the profit or loss of Contractor for the Title XIX, Title XXI, and for Non-Title XIX and Non-Title XXI programs. ADHS shall consider the following in its review methodology: analysis of Contractor encounters and review and analysis of Contractor IBNR amounts for appropriateness. Upon completion of this analysis, no later than twelve (12) months after the end of the fiscal year, any profits or losses on service revenue in excess of four percent (4%) for Title XIX and four percent (4%) for Title XXI shall be returned to ADHS (profits) or reimbursed to Contractor (losses), subject to available funding. Any Non-Title XIX and Non-Title XXI profits in excess of four percent (4%) shall be returned to ADHS.
